Summary

Data Analyst with 3+ years of experience transforming raw data into actionable business decisions across EdTech and Consumer Electronics. Proficient in SQL, Power BI, Tableau, Excel, and Python (pandas, numpy) — with a proven track record of reducing manual reporting effort by 40%, improving data accuracy to 99%, and boosting team productivity by 90%. Skilled in building automated dashboards, writing complex SQL queries (joins, window functions), and translating business requirements into analytical solutions.

Skills

Programming & Querying: SQL (MySQL, PostgreSQL, Redshift), Python (pandas, numpy, matplotlib)

Data Visualization: Power BI, Tableau, Looker Studio, Advanced Excel (Pivot Tables, VLOOKUP, INDEX-MATCH, Macros)

Data Analysis: Data Cleaning, EDA, Descriptive Statistics, KPI Tracking, A/B Testing, Hypothesis Testing

Technical Concepts: Data Modeling, ETL Processes, Data Warehousing, Window Functions, Joins

Tools & Platforms: Git, GitHub, Google BigQuery, Amazon AWS (Fundamentals), Google Sheets

Experience

Data Analyst — MIS Executive

FITPASS, New Delhi

July 2023 – Present

Tools: Excel, SQL, Power BI, Tableau, Looker Studio

- Designed and optimized SQL-based data pipelines and databases, improving data processing efficiency by 30% across multiple business workflows.
- Performed data cleaning, validation, and auditing on large datasets (500K+ rows), ensuring 99% data accuracy and consistency.
- Built and automated interactive dashboards using Power BI and Tableau, reducing manual reporting effort by 40% and enabling real-time KPI tracking for senior stakeholders.
- Analyzed customer behavior and product usage data to identify churn patterns and engagement trends, supporting data-driven decision-making that improved retention outcomes.
- Defined and monitored key performance indicators (KPIs) to track customer engagement, retention, and operational performance across 3 business units.
- Collaborated with cross-functional teams (Product, Operations, Sales) to translate business requirements into analytical solutions and self-serve dashboards.

MIS Executive

LG Electronics, New Delhi

April 2022 – February 2023

Tools: Excel, SQL, Power BI, Looker Studio

- Developed and automated daily, weekly, and monthly reports and dashboards to monitor engineer productivity, performance, and service center KPIs for 200+ field engineers.
- Analyzed sales and operational data to identify trends and patterns; implemented data-driven strategies that increased team productivity by 90% and improved overall performance.
- Automated reporting workflows using Excel macros and SQL queries, reducing data turnaround time by 60% and eliminating manual data entry errors.
- Managed customer service processes including engineer onboarding (ID creation) and replacement/refund handling, ensuring accurate data management and 100% customer satisfaction.

Projects

- Customer Retention Analysis (FITPASS):** Queried a 500K+ row subscription dataset using SQL window functions to identify a 12% churn spike among users inactive for 30+ days; findings adopted by the product team to trigger targeted re-engagement campaigns.
- Revenue & KPI Dashboard (Power BI):** Built an executive dashboard tracking 8 KPIs across 3 business units; reduced weekly report preparation time from 4 hours to under 20 minutes, adopted by the leadership team for daily monitoring.
- Engineer Performance Tracker (LG Electronics):** Automated daily/weekly/monthly reporting for 200+ service engineers using Excel macros and SQL; improved data turnaround time by 60% and enabled real-time visibility into field operations.
- Sales Trend EDA (Tableau):** Performed exploratory data analysis on 2 years of regional sales data; identified top 3 underperforming SKUs and presented actionable findings to the sales team via a Tableau storyboard, informing Q3 inventory strategy.

Awards & Certifications

- **LinkedIn Learning — Data Analytics Certificate** *Completed: 2023*
Skills covered: SQL, Data Cleaning, Dashboarding, EDA, Reporting
- **Google Data Analytics Certificate (Coursera)** *In Progress / Recommended*
Skills covered: Data analysis, visualization, SQL, R, Tableau, case studies
- **Microsoft Power BI Data Analyst Associate (PL-300)** *Recommended next step*
Industry-recognized certification for Power BI professionals

Education

Bachelor of Commerce (B.Com.) *Graduated: 2022*
School of Open Learning (SOL), Delhi University, New Delhi *CGPA: 7.4 / 10*
